The monthly entertainment by Miss Gulliford's pupils took place yesterday afternoon, and was highly enjoyed by the children themselves, as well as by their parents and many visitors. The adjutant general's office of the territory of New Mexico was somewhat demoralized a day or so this week by two widows, both claiming the same husband. It was finally settled that Juan de Jesus Martinez, aged 34 years, captain of company B, First N. On last Wednesday evening a very amusing entertainment was given at St. Michael's college exhibition hall, in honor of St. Patrick, by the members of the college literary society. The vocal and instrumental music, recitations and declamations were well received by the audience. A debate on the subject: "Which has been more beneficial to man, gold or iron?" was very interesting, many interesting points being brought out by the debaters. The judges, after due deliberation, decided that the advocates of iron had the best of the argument. The members of the society are certainly entitled to credit for the manner in which the evening passed and the excellence of the entertainment.
